

I was so impressed with Eco Alliance's team!!! In the past I have had two different recyclers that just picked out what they wanted, leaving the rest in a mess and left. That's when I found Eco Alliance and called them in to help me out and clean up the mess!! When they were done it was so refreshing to see they had done a great job and cleaned up the areas. That's why I recommended them to others in the local community. Good job to Glen and his team at Eco Alliance.
