To whom it may concern,

Several of our companies have completed projects with ECO Alliance over the past three years. ECO has served us very well in demolition projects, Real Estate dealings, and scrap metal projects.

The ECO organization has been efficient, professional, and very cooperative in the completion of our projects and has received excellent comments from people we have referred to ECO.

ECO meets or exceeds all safety and insurance requirements necessary to protect both ECO and their customers. Everyone we have worked with from ECO Alliance has been professional and competent. We would certainly recommend ECO to complete any project that they would agree to perform.
