The Dacoma Farmers Coop contacted Glen Knudson with ECO Alliance about some cleanup work that had been piling up for several years. Glen visited the site and told us what they would do and how they would do it. The crew arrived in a very timely manner and began the cleanup. All employees were very professional and courteous. The job was done quickly and very much to our satisfaction. We were very pleased with the results and I would recommend ECO Alliance to anyone that has a large or small cleanup job. GOOD JOB!

Doug Locke
